📄 PROFESSIONAL SUMMARY

Software Engineer Intern at CodeQuotient and Full-Stack Developer with experience building scalable, production-ready web applications. Proficient in JavaScript, React, Next.js, Node.js, Express.js, and MongoDB, with hands-on experience in authentication, REST APIs, real-time applications, and deployment. Strong problem-solving skills with a solid foundation in data structures and algorithms, focused on delivering efficient and maintainable software solutions.

🧠 TECHNICAL SKILLS

Programming Languages

JavaScript (Strong), C++, C, Java, Python

Frameworks & Libraries

React.js, Next.js, Node.js, Express.js, Socket.IO, GSAP, WebGL

Databases & Backend

MongoDB, Convex Database, REST APIs, JWT Authentication

Tools & Platforms

Git, GitHub, TypeScript, Vercel, Postman

Core Concepts

Data Structures & Algorithms, Object-Oriented Programming, Real-Time Systems.

📁 EXPERIENCE

CodeQuotient pvt. Limited

Software Engineering Intern

07/2026 – Present | Panchkula, Haryana

- Worked on real world problems
- Strengthened problem-solving, full-stack development, and project execution skills

🎓 EDUCATION

BCA (Industry Integrated)

CodeQuotient School of Technology

07/2024 – Present | Bhiwani, Haryana

📁 PROJECTS

Real-Time Spotify Clone 🔗

Independent Project

- Built a real-time music streaming platform with live messaging using Socket.IO
- Implemented JWT-based authentication and secure user sessions
- Adapted to TypeScript during development to improve code reliability and maintainability
- Gained hands-on experience deploying a MERN stack application

Tech: MERN Stack, Socket.IO, TypeScript, JWT

Mumbai Chai Café – Full-Stack E-Commerce 🔗

Freelance | Deployed Production Application

- Built and deployed a production-ready café management platform using Next.js and React.
- Developed product listings, cart functionality, and a responsive customer-facing UI.
- Independently managed the project from development to deployment.

Tech: Next.js, React, JavaScript, REST APIs

Zentry Clone – 3D Animated Website 🔗

Independent Project

- Built a visually immersive 3D animated website
- Gained first-hand experience with WebGL and GSAP animations
- Focused on performance optimization and smooth animation workflows

Tech: JavaScript, WebGL, GSAP

SENSAI – AI-Powered App Builder

Independent Project

- Developed an AI-powered application capable of generating React-based apps from a single prompt
- Deepened Next.js expertise beyond React fundamentals
- Integrated Convex database for backend data handling and scalability

Tech: Next.js, React, Convex DB, AI Integration
